America's Heartland (E/I)

"America's Heartland" is a weekly half-hour series featuring everyday Americans and their families, telling fascinating stories across America's heartland. From learning how to make maple syrup to riding with teenage ranchers, this series explores the various ways of life in the current United States, while showcasing the diversity of how people live and work. Each episode visits several locations and introduces teen viewers to ordinary Americans who sometimes have extraordinary occupations. The series also highlights the history of different regions of the country while providing important facts about each place visited.

Animal Rescue (E/I)

"Animal Rescue" showcases spectacular rescues of all types of animals and focuses on the work of dedicated individuals who treat the various creatures of the animal kingdom. All stories are authentic and contain actual video of rescues. Series is E/I rated (ages 13-16) and is suitable for family viewing.

Biz Kidz (E/I)

Biz Kid\$ is a weekly half-hour series focusing on financial literacy and entrepreneurship for teens, targeting 13 to 16-year-olds. Using a mix of strong financial education tools, dynamic sketch comedy, and inspiring true stories of young entrepreneurs, Biz Kid\$ provides important information for future success. Each episode features math, language arts, and social studies as well as teaching teens about money and business.

Dragonfly TV (E/I)

"Dragonfly TV" is a weekly half-hour science television series that meets the educational and informational objectives of the FCC's Childrens Programming requirements for children ages 13-16. The programs highlight children "doing" projects with real hands-on experience and demonstrates practical applications of mathematics and science. It introduces young viewers to a variety of scientific disciplines and challenges them in critical thinking and problem solving skills, while providing valuable information to reach answers. Each episode is engaging, entertaining and educational in structure, allowing children to investigate science on their own. "Dragonfly TV" is closed-captioned for the hearing impaired and displays the "E/I" icon throughout the broadcast.

Think Big (E/I)

Think Big features top kid inventors who face off against each other in an InventOff to see who can come up with the most innovative and creative invention. Each episode is set in the Think Tank, a studio filled top to bottom with art supplies and construction materials. Two teams, each led by a Featured Inventor, brainstorm, choose materials, and then sketch, design and build their idea. Once completed, the competing inventions are presented to a judge. The best invention wins bragging rights and the coveted Genius Cup. In Think Big, kids acquire and showcase their skills in creativity, science, innovation, marketing, design and teamwork. May the brightest mind win! Think Big is a kid-hosted entertaining series for young people following the world's most innovative kids as they create and invent new toys, games, learning tools, websites and new modes of transportation. Some even start their own companies! E/I, age 13-16

Wild America (E/I)

"Wild America" is targeted to children ages 13-16. The key educational objective of this program is to familiarize children with the animals of the North American continent, their interaction with other animals and their environment. Throughout the series emphasis will be placed upon protecting endangered species and the impact that humans have while interacting in their environment. Each episode of the series will be specific to a particular animal. Topics will range from basic food gather, mating, natural enemies, relationships to other animals, and the interaction of the specific ecology on the survival of the species. We expect that children viewing the program will achieve a greater understanding of nature and specific animal species because of the up-close and detailed photography of the series. Through this understanding, it is hoped children will better relate to the natural environment as it exists in North America and learn to protect its natural species.
